

FACOM Engine remetalling 250ml

EAN: 3221320060148

SKU: 006014

FACOM engine metal recoverer 250ml, a nanotechnological treatment based on tungsten bisulphate which will prolong the life of an engine. Mixed with the engine oil, it reduces wear and tear, and helps seal between pistons and cylinder walls. It restores compression and reduces consumption of both oil and carburant 250ml in metal container
