

*FACOM Brake cleaner 400ml

EAN: 3221320060612

SKU: 006061

Cleaner specifically for brake and clutch mechanisms. Quickly removes residues from friction linings and greasy soils and other impurities that are harmful to proper operation of the mechanism. With no rubbing or wiping, it leaves the surface clean, dry and residue free.

Powerful and precise jet with its 'PowerJet' nozzle.

May be used in all positions ('360°' aerosol)

No adverse effects on rubber gaskets and bellows

Compatible with carbon/ceramic type brake systems

EXAMPLES OF USE: Cleaning of brake and clutch systems on cars, motorcycles, trucks

May be used on any other friction lining system: shaft brakes

Can be used as a degreaser on bare metals

400 ml (net) aerosol, CO2 propellant, extension tube
