

***FACOM Mechanical degreaser**

EAN: **3221320060629**
SKU: **006062**

FACOM Mechanic's Degreaser is a powerful cleaner that removes oils, greases and other stubborn residues encountered in industry and mechanical work. Its composition combined with its powerful mechanical action gives quick degreasing, with no rubbing. And thanks to its complete evaporation it leaves a clean and dry surface in seconds.

Powerful and concentrated jet.

Highly precise work even on small parts or inaccessible mechanisms.

Specific formula with no chlorinated solvents: leaves no stains and has no effect on O-rings, rubber, metals, alloys, PTFE coatings, bronzed metals

May be used in all positions ('360°' aerosol)

EXAMPLES OF USE: For cleaning gasket surfaces, chains (even with O-rings), gears, bushings, bearings, cables

Dissolves and disperses traces of oils, greases

Removes silicone gasket residue, traces of adhesive

Degreases before painting or applying adhesive.

Degreases electrical contacts.

400 ml (net) aerosol, CO2 propellant.
