

***FACOM Contact cleaner 250ml**

EAN: **3221320060643**

SKU: **006064**

FACOM contact cleaner 250ml, a product that dissolves grease deposits, dispels dust and humidity, removes oxidation. Eliminates those continuous or intermittent bad contacts that cause malfunctions on electrical or electronic circuits. May be used pre-emptively in order to improve and optimise electronic performance. The aerosol may be used in any position thanks to the 360-degree nozzle.

Translucent product. Dries rapidly, leaves no greasy deposits. Formula compatible with the majority of common materials (metals, plastics, rubber). For all types of contact, connectors, contacts, switches, terminal blocks, sockets, relays, probes, etc.

Aerosol 250ml (nett) with extension tube
