

*FACOM Silicone lube 300ml

EAN: 3221320061008

SKU: 006100

A 'clean' (colourless) lubricant with concentrate formula, for special mechanisms, and plastic or rubber seals. It lubricates and protects from wear, freezing or drying out. It is an excellent release agent that has a very low coefficient of friction. 'Non-greasy' to the touch, prevents dust from sticking. Non-running and odourless after application. A water repellent, it waterproofs and prevents moisture from penetrating. Fine lubricant for metals and protects them against moisture and corrosion. '360°' Aerosol, may be used in all positions

EXAMPLES OF USE:

Protection against wear, freezing, drying of rubber or foam seals (vehicle doors, etc.)

Shines and hides scratches on plastics, simulated leather (dashboards, etc.)

Mould release, bearing and raceway coating

Lubricant for slides for furniture, windows, shutters, toys, etc.

For metals, wherever 'clean' anti-stick properties are needed: cutter blades, drive cylinders, furniture slides, etc.

300 ml (net) aerosol, extension tube
