

## **\*FACOM Silicone grease 300ml**

EAN: **3221320061015**  
SKU: **006101**

---

'Clean' (colourless) silicone grease for positioning, lubricating and protection of gaskets and seals. Its high adhesion combined with its working consistency makes it a high performance and long lasting grease. Provides effective protection against moisture and dust penetration. Protects rubber seals against drying out or freezing. High adhesion on all materials. High pressure lubricant. Non-running and odourless after application. Water repellent, waterproofing. Water resistant and weatherproof. Chemically inert, safe for plastics and rubber. Good thermal conductivity. '360°' Aerosol, may be used in all positions.

EXAMPLES OF USE: Positioning and pre-lubricating of mechanical seals (elastomeric seals, metal-plastic laminates, etc.). Lubrication and protection of seals subject to spray or water immersion (valves, glands, faucets ). 'Clean' lubrication in the textile or paper industry...

Also on metallic mechanisms. Waterproofing and anti-drying for rubber (tubing, wiring harnesses, etc.).

300 ml (net) aerosol, extension tube
