

FACOM Penetrating grease 300ml

EAN: **3221320061022**

SKU: **006102**

High performance grease for assembly and maintenance. Its powerful penetrating action facilitates lubrication of previously assembled or inaccessible mechanisms. It adheres well to metal and permanently protects against wear and corrosion. Reduces overheating and friction between moving parts. Light and stringy. Resists shear, excellent working consistency. Water repellent.

EXAMPLES OF USE: Main grease and for regular maintenance in industry and for professional mechanics. For mechanisms under low and moderate load, operating at zero to high speeds. In dry or wet environments.

Joints (automobile hinges, motorized doors, links, motorcycle stands, etc.) Gearing (reducers, etc.). Ball bearings, bushings, slideways. Steel chains and cables. Positioning fasteners, studs and for corrosion protection

300 ml (net) aerosol, extension tube
