

*FACOM Penetrating & lube oil

EAN: 3221320061039

SKU: 006103

FACOM lubricating & penetrating oil 300ml, a multipurpose penetrating oil and lubricant composed of special penetrating agents and active anti-rust agents.

Its penetrating action is fast and efficient. High wetting action ingredients assure a truly fatty and effective lubrication for combating wear and overheating.

- Special penetration agent
- Active anti-rust agent
- High wetting action and fatty lubrication
- Hydrophobic, creates a protective film that repels water
- '360°' Aerosol, may be used in all positions

Applications :

- Freeing seized nuts and mechanisms
- Lubricating mechanisms, bearings, etc
- Stops grinding, reduces wear and tear in use
- Lubricates whilst drilling and tapping.
- Allows cleaning, degreasing and removal of tar deposits on metal sheets and buildings
- Gives a non-stick surface against tars and salts
- Allows bare metal to be left for several days without corrosion

Aerosol 300ml (nett) with extension tube
