

*FACOM penetrating-lube 400ml

EAN: 3221320061114

SKU: 006111

FACOM lubricating & penetrating oil 400ml, a multi-purpose penetrating oil and lubricant composed of specific unseizing and anti-rust agents . The penetration action is rapid and effective. The constituent powerful wetting agents assure a thick lubrication effective against wear and over-heating

- Special penetration agents.
- Active anti-rust agent.
- Powerful wetting agent
- Hydrophobic, creates a water-repellant film.
- Aerosol with 360 degree nozzle, may be used in all positions.
- Applications -
- Frees up seized nuts and mechanisms.
- Lubricates mechanisms, bearings, bushes.
- Stops grinding, reduces friction and wear.
- Lubricates whilst drilling and tapping.
- Allows cleaning, degreasing and removal of tar deposits on metal sheets and buildings
- Gives a non-stick surface against tars and salts.
- Allows bare metal to be left for several days without corrosion

Aerosol 400ml (nett) with multi-position nozzle
