EAN: 3221320094938

SKU: 009493

MICHELIN Extending Snow Broom/Frost Scraper. Aluminium handle extends from 71 cm to 105 cm A 2-in-1 winter special. A telescopic snow brush with the brush on one extremity and an ice scraper on the other extremity. The blade's width of 10 cm allows clean scraping after scratching with the integral claws. The brush side (25cm) is ideal for taking off fresh snow. , coupled with a rubber spatula of 25 cm. The head swivels for a better adaptation to the work area. Sweep with the large brush and scrape for finishing, always in the optimum position. A telescopic aluminum handle, which extends from 71 to 105 cm, at last allows the final cleaning of the roof of the car without problem. The handle is covered with a foam sleeve which gives comfort in use. This tool is particularly well suited to SUV's, 4x4, vans and commercial vehicles. Ideal in hilly or mountainous areas.
