MICHELIN Extending Snow Shovel with Handle. The portable solution to snow! This shovel, to keep in the boot of the car, allows an immediately effective removal of snow . A real tool, of an appropriate size, fitted with a solid shovel with a generous width 24cm with ice breaker blade, it has a robust, lightweight aluminum and - above all - a telescopic handle extendable from 90 to 116cm. This shovel will adapt better to your comfort of use with its end piece/ handle for a better grip, and the foam-sleeve handle ensures you will avoid contact with the cold metal.
